

Data Collection Exercise

Fill out the following from your own CD collection. You will then use this data in several 'MySQL Virtual Workshops'.

Artist	Album Title	Release Year	No of Tracks	Label	Date Bought
Jamiroquai	A Funk Odyssey	2001	10	Sony Soho2	13-09-01
Strokes	Is This It	2001	11	Rough Trade	20-08-01

Note: The example albums are the top two selling albums from Amazon at the time of writing. You too could 'make up' some entries in a similar way, but vary the purchase date over a few years.
